**Re: Hudson River PCBs Superfund Site
Remedial Action Consent Decree (Civil Action No.1:05 CV-1270)
Submission of Updated and Final Remedial Action Completion Report**

Dear Mr. Klawinski:

Enclosed for the General Electric Company (GE) is the updated Remedial Action Completion Report for the remedy specified by the U.S. Environmental Protection Agency (EPA) in its 2002 Record of Decision (ROD) for the Upper Hudson River sediments. This report was originally submitted on December 23, 2016 pursuant to Paragraph 57.b of the above-referenced Consent Decree (CD). It has been updated to address EPA's December 26, 2018 comments on that original report. The enclosed report constitutes the final version of the RA Completion Report.

This report continues to demonstrate that GE completed the Remedial Action described in the ROD and defined in the CD in accordance and full compliance with the CD. Accordingly, GE reiterates its request that EPA issue a Certification of Completion of the Remedial Action pursuant to and in accordance with Paragraph 57.d of the CD.

Each paper copy of the text of this report is accompanied by a flash drive that contains the text, the numerous and extensive appendices, and the shapefiles requested by EPA in its December 26, 2018 comments.

Sincerely yours,

John G. Haggard
GE Project Coordinator
